- ORBIX BOW AND MIDSHIP HATCHES
- TANKWELL WITH ADJUSTABLE BUNGEE
- COMFORT CARRY HANDLES
- SIDE CARRY HANDLES WITH PADDLE HOLDER
- RUDDER READY
- SLIDETrax ACCESSORY SYSTEM
- SELF-BAILING SCUPPER HOLES
- GEAR STORAGE POCKETS
- CUPHOLDER

## TARPON 120 UL

Ultralite material offers composite-like weight with the rotomolded kayak durability in a Tarpon package. Easy access to gear and manageable size redefines pleasure.

### SPECIFICATIONS

Length	12' / 366 cm	Weight	43 lbs. / 20 kg
Width	30" / 76 cm	Capacity	350 lbs. / 159 kg

### FEATURES

- HARMONY DELUXE SIT-ON-TOP SEAT
- KEEPERS FOOT BRACE SYSTEM
- ORBIX BOW AND MIDSHIP HATCHES, MIDSHIP STORAGE WITH DECK PLATE
- TANKWELL WITH BUNGEE
- BUNGEE DECK RIGGING
- COMFORT CARRY HANDLES
- SIDE CARRY HANDLES WITH PADDLE HOLDER
- GEAR TRAY
- SELF-BAILING SCUPPER HOLES
- RUDDER READY

## TARPON 130T

Proving that a roomy tandem doesn't have to sacrifice solid performance; this sit-on-top can fit almost any team comfortably, even a team of one.

### SPECIFICATIONS

Length	13' / 396 cm	Weight	69 lbs. / 31 kg
Width	34" / 86 cm	Capacity	550 lbs. / 249 kg

### FEATURES

- COMFORT SEATING SYSTEM WITH SPINE (CSS)
- MOLDED-IN FOOTWELLS
- 2 MIDSHIP RUBBER HATCHES
- BOW AND STERN TANKWELLS WITH BUNGEE
- SOFT TOUCH HANDLES
- SIDE CARRY HANDLES WITH PADDLE HOLDER
- SELF-BAILING SCUPPER HOLES
- CUPHOLDERS

# COMMANDER SERIES

## COMMANDER 120

This hybrid crossover combines the kayak paddling experience with exceptional stability and the capacity of a canoe. The dual seating option and the SlideTrax outfitting system create versatility for a variety of uses.

### SPECIFICATIONS

Length	12' / 366 cm	Weight	64 lbs. / 29 kg
Width	30.25" / 77 cm	Capacity	400 lbs. / 181 kg

### FEATURES

- AIRPRO FREEDOM ELITE
- ELEVATED SEATING AREA
- EXTENDED THIGH & KNEE PADDING
- SLIDELOCK FOOT BRACE SYSTEM
- BOW AND STERN TANKWELLS WITH ADJUSTABLE BUNGEE
- PARTIAL STERN BULKHEAD
- COMFORT CARRY HANDLES
- RUDDER READY
- SLIDETrax ACCESSORY SYSTEM (TOP AND SIDE)
- SKID PLATE
- DRAIN PLUG

## COMMANDER 140

With even more storage space, leg room, capacity, and speed than the Commander 120, this is the ultimate hobby machine for the casual and the enthusiast.

### SPECIFICATIONS

Length	14' / 427 cm	Weight	69 lbs. / 31 kg
Width	31" / 77 cm	Capacity	475 lbs. / 215 kg

### FEATURES

- AIRPRO FREEDOM ELITE
- ELEVATED SEATING AREA
- EXTENDED THIGH & KNEE PADDING
- SLIDELOCK FOOT BRACE SYSTEM
- BOW AND STERN TANKWELLS WITH ADJUSTABLE BUNGEE
- PARTIAL STERN BULKHEAD
- COMFORT CARRY HANDLES
- RUDDER READY
- SLIDETrax ACCESSORY SYSTEM (TOP AND SIDE)
- SKID PLATE

# AIRPRO <sup>PHASE 3</sup> INTRODUCING PHASE 3® AIRPRO

The Wilderness Systems patented Phase 3 seating system has become the industry leader when it comes to an amazingly comfortable seat. And now it's even better.

Introducing the new Phase 3 AirPro; designed with innovative features that add comfort, easy adjustability, and attention-grabbing appeal at POS.

Ergonomic elements have been added to all aspects of the AirPro. The contoured seat and seat backs have been designed with increased comfort in mind. Multiple-sized holes in the special foam padding produce varying densities to provide extra cushioning along the spine and under the legs while comfortably supporting the sit bones. The flexible back rest features a cutaway for spinal support and a dynamic structural design that conforms to and moves with your back; the seat's leg lifter area has a softer edge and is contoured under your thighs. The AirPro also features a carefully selected material over the perforated foam, greatly improving ventilation so you and your seat breathe and dry out quickly.

## SEATING SYSTEMS

PHASE 3® AIRPRO

PHASE 3® AIRPRO SOT

PHASE 3® AIRPRO XP

PHASE 3® AIRPRO TOUR

PHASE 3® AIRPRO ADVANCE

AIRPRO FREEDOM ELITE: RIDE/COMMANDER

HARMONY® DELUXE SOT

This comfortable sit-on-top seat features a skid resistant bottom and nylon-covered foam backing. Nylon webbing is engineered with corrosion resistant features for longevity.

### FEATURES & BENEFITS

- Ground breaking seat back design flexes to support the paddler, providing back stability without limiting the paddler's stroke
- Large comfort holes allow ventilation for air flow while providing cushioning to hard contact areas under the legs and along the spine
- Smaller holes on the backrest provide ventilation and increased support to the oblique muscles while the holes in the seat pad support the sit bones and provide drainage for water
- A clean, refined look of luxury performance is achieved with crisp lines, technical materials and hidden pad attachment methods
- Web straps located on both sides of the paddler allow the seat to be pulled forward for support while paddling or reclined for relaxation
- The central controls allow for adjustment of the leg lifter and seat back height
- Ergonomic, scalloped leg lifter design with a 3D contoured seat pad that cradles the paddler's legs removing pressure and increasing blood flow
- The mesh bag is the perfect place for a water bottle, camera, gear or excess adjustment straps

## OUTFITTING

### HATCH COVERS

KAJAK SPORT

The industry standard in rugged hatches, the Kajak Sport offers a reliable, water tight seal from the combination of a double sealing design and next-gen material construction.

ORBIX LOCKING

Innovative "turn-and-lock" hinged hatch cover makes gear access an easy affair. Latching cover with a tight seal is just as easy, simply lock in place with the lever.

DOMED

Durable push-on hatch covers make gear access easier than ever, while offering even drier storage from a true fitting, watertight seal.

### FOOT BRACES

KEEPERS

Durable footpegs reposition smoothly to one of many length settings by reaching forward with your hands to engage with track. Featured on most sit-on-top and rudder models.

SLIDELOCK™

Patented, precision adjustment of footpegs for comfort and control is simple and convenient. Side located wands make it possible to reposition by hand on the fly without leaving the seat.

### HANDLES

SOFT TOUCH & COMFORT CARRY

Ergonomic handles conform to the hand shape. Handle construction materials deliver a secure and comfortable grip. Loading, unloading, and carrying a kayak is easier than ever.

### RUDDERS

BLADE TRACKING SYSTEM

Take control and gain paddling efficiency in windy and choppy conditions or in fast current. Rudder kayak models come with the BTS Rudder kit pre-installed.

RUDDER READY MODELS

Many models ship "rudder ready" with internal tubing that houses rudder cables pre-installed for simple, rapid addition of after-market rudder kits.

### KAYAK KONSOLE

KAYAK KONSOLE

Carry your gear with the easy access center console. Includes Orbix locking hatch, universal cup holder, mesh pocket, and gear trays with plenty of dry storage space.

### SKEG

SKEG SYSTEMS

Performance and reliability are at the heart of our skeg systems for our 2013 kayaks. Durable construction and hydrofoil shape offer more efficient water mending for an overall improved paddling performance when deployed. The system enclosure was designed for more durability, with the blade housing design now being easier to perform any repairs needed over time.
