

> Recreational kayaks

Recreation without the high school peer pressure and ridicule.

Think "recreational" and what comes to mind? Gym socks? Medicine balls? Hardwood floors? Psycho gym teachers? Yeah, me too. But put those things out of your head (or you'll have the nightmares again). The thing is, there isn't much recreational about our recreational kayaks. Just as much thought, precision and passion goes into one of these boats as our whitewater and touring kayaks. But this is a whole new kind of fun. Fun that's just about limitless. Yeah, I thought you'd like that. Fun that's portable. And fun that'll rip your kids away from the video games and internet chat rooms – and they'll like it.

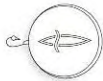

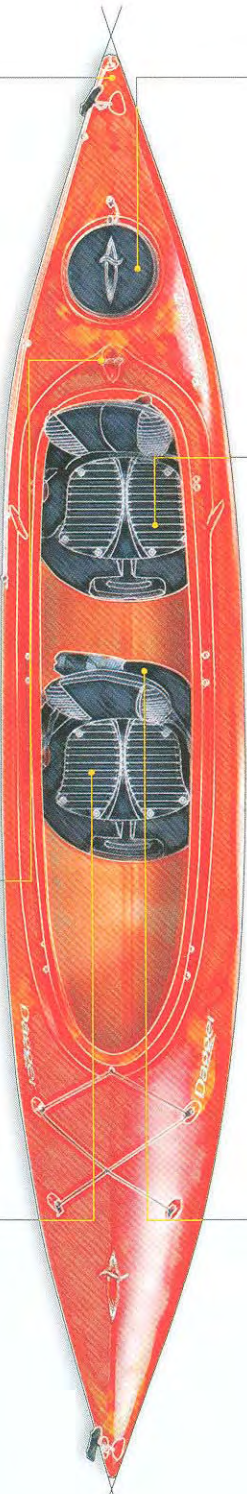

RECREATIONAL PERFORMANCE FIT SYSTEM™

DAgger PFS™

NOTE: These features are available on select Dagger recreational kayaks. See each boat's specifications for details.

Sure-Seal™ Hatch cover
Constructed of a UV-proof rubber compound, it seals your storage compartment tightly and easily, guaranteeing both watertightness and quick access.

Thermofoam Seat and Back pads
Soft contoured foam covered in textured lycra gives you plushness that was once found only on high end touring kayaks. Not only that, it offers a barrier of protection between your warm body and the cold water beneath you.

Camlock backrest
Our backrests are covered with a Thermofoam pad and are high enough to give you the comfort you want without interfering with your sprayskirt. The cam buckle and durable no-slip webbing allow simple adjustments while seated in the cockpit. A quick tug on a strap is all it takes to increase back support.

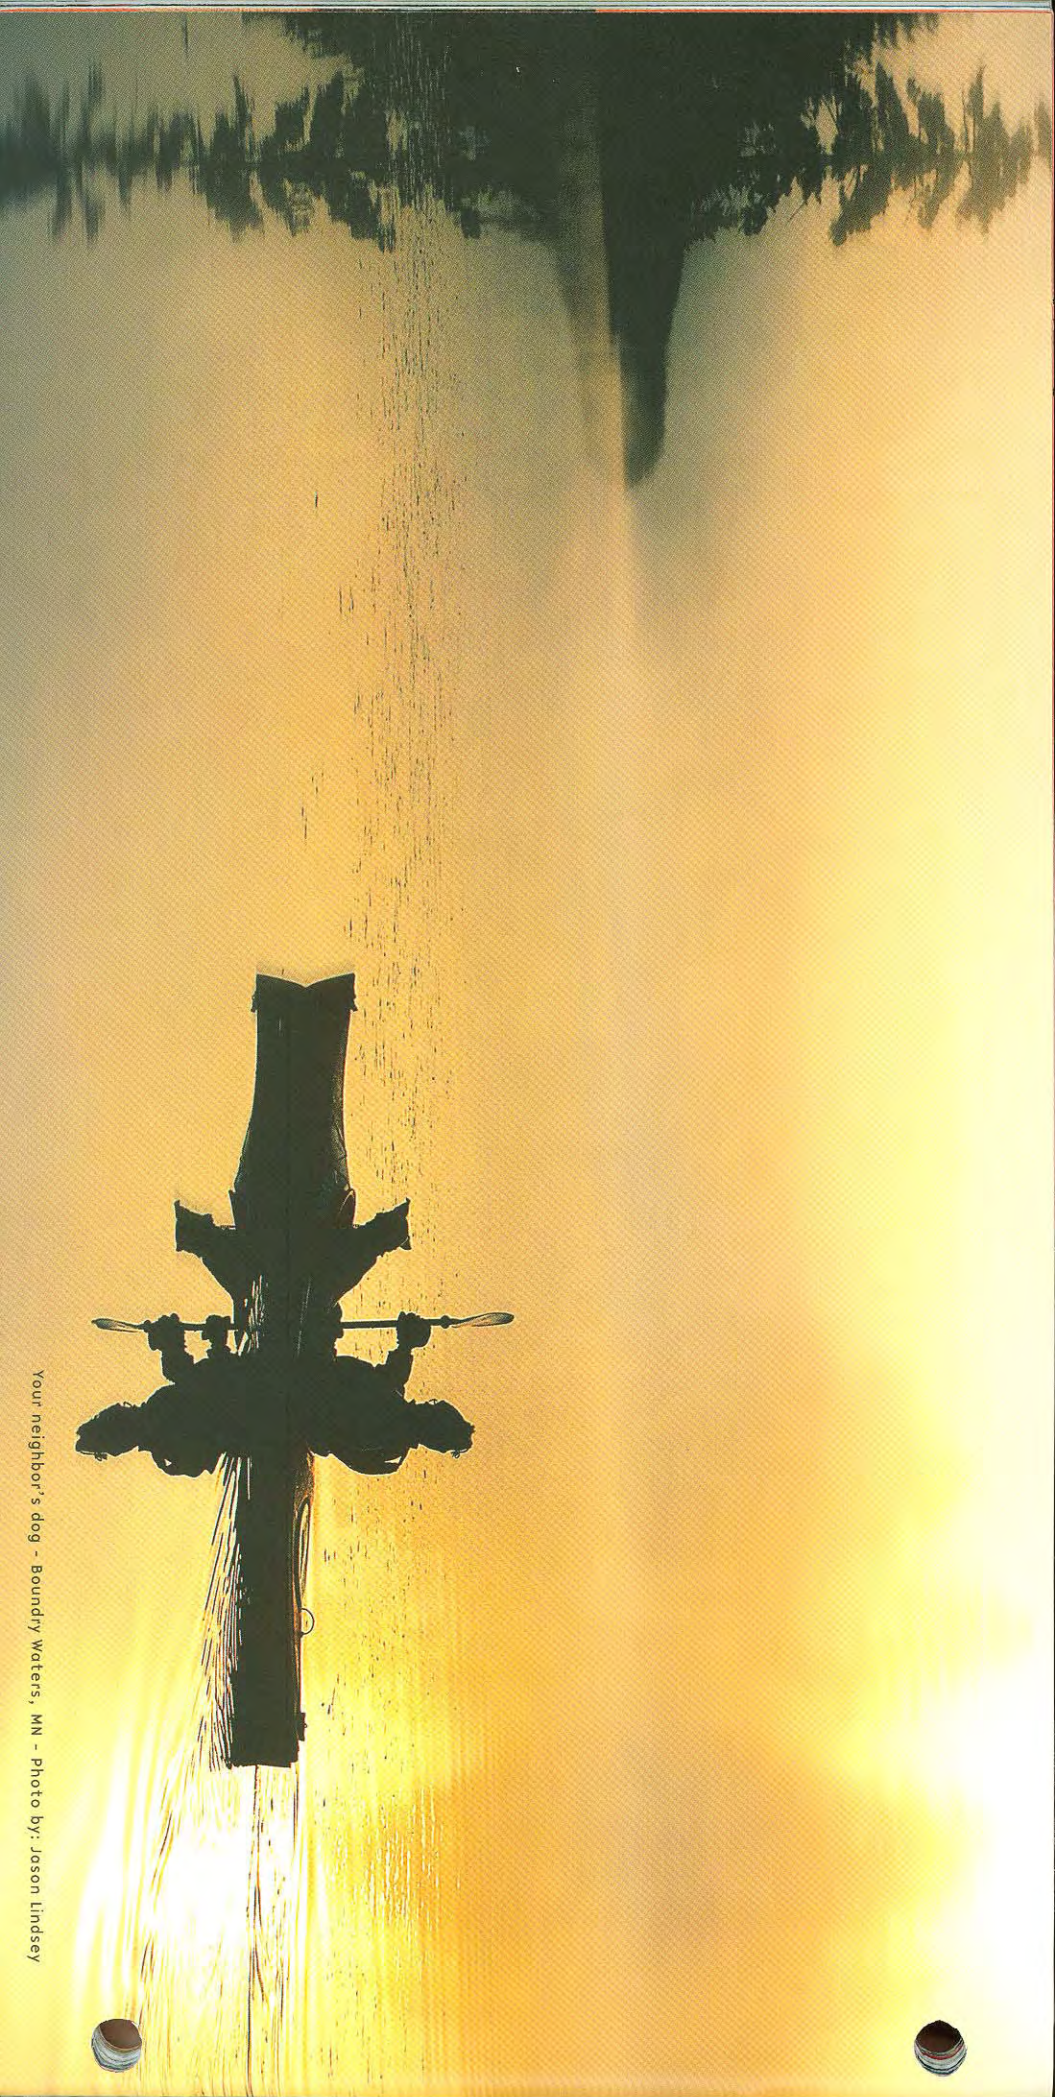

Tru-trok™ Skeg
If only everything were as simple and effective as our Tru-trok™ skeg. You want tracking? Drop the skeg. You want maneuverability? Raise the skeg.

Hammerhead™ Security Bar
Made of stainless steel, attached with burly tamper-resistant screws, and mounted in a deep recess to fit bulky cable locks. It helps ensure that your boat remains your boat.

Molded-in seat
Most of our recreational kayak seats are molded as a structural part of the boat. This means that there's no mounting hardware to fuss with, and makes for seats that are up to one-third as light as separately molded seats. And don't worry – all the comfort you've come to expect from Dagger seats is still there.

> Blackwater 11.5

11.5

Length: 11' 6" (3.51m) | Width: 25.75" (65.41cm)

Weight: 45lbs (20.41kg) | Deck Height: 11.75" (29.85cm)

Maximum Load: 280lbs (127.00kg)

Cockpit: 38" x 21" (96.52 x 53.34cm)

11.5

> The 11.5 is our resident celeb. Sunglasses, high-profile dates, paparazzi. This is the original design with the well-deserved following. Versatile. Responsive. And suitable for all ages and skill levels (that's rated 6). Take it out on anything from ponds to rivers with its standard Tru-Trak™ drop skeg that gives you the option of tracking or maneuverability. Like dry gear? Then you'll like the stern hatch with bulkhead and Sure-Seal™ hatch cover. And just for fun, this one comes with our fab Performance Fit System™ with Thermofoam Seat and Back pads, along with Keepers™ foot braces.

> Blackwater 10.5

> You won't find a lighter, more portable or more maneuverable kayak with this many features. Go, on try and find one, I'll wait. Couldn't do it, could ya? This is the boat for day trips with the fam or nature watching on ponds, lakes and lazy streams. Its light weight and short length make storage and transport things of ease and when you're in the water, the wide beam and forgiving hull make for stability to spare. And it's packed with features you don't normally see on Rec. boats. Like our Tru-track™ skeg and an aft storage compartment with a Sure Seal™ hatch cover. We've even thrown in our Performance Fit System™ featuring a Thermofom seat and Back pads, not to mention Keepers™ foot braces.

Length: 10' 6" (3.20m) | Width: 26 1/2" (66.36cm)
Weight: 44lbs (19.96kg) | Deck Height: 11.75" (29.85cm)
Maximum Load: 235lbs (107.00kg)
Cockpit: 38" x 24" (96.52 x 53.34cm)

> Blackwater II 13.5

13.5

> **It slices. It dices.** It... okay, it doesn't do either of those things, but the 13.5 is the most multitallented family kayak in the Blackwater series. And when you don't wanna go tandem, there's a bow seat that moves to the center for efficient solo paddling. You've got a stable and nimble boat with quick acceleration and good speed for longer trips. You've even got comfortable, padded seats. And if all that doesn't float your boat (yes, it's a bad pun), you've got a stern hatch with a Sure-Seal™ hatch cover and optional bulkhead. I see ya grinnin'. Well hold on to your hat, sonny – there's more. Like a standard drop skeg. Still got your hat? Just checkin'?

13.5
Length: 13' 6" (4.11m) | Width: 30.25" (76.84cm)
Weight: 78lbs (35.38kg) | Deck Height: 13" (33.02cm)
Maximum Load: 475lbs (216.00kg)
Cockpit: 80" x 21" (203.2 x 53.34cm)

> Zydeco 9.0

9.0

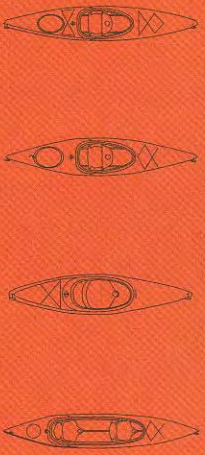

> Looking for an extremely lightweight, easy to transport rec kayak that paddles like a much larger boat?

Here ya go. The Zydeco is perfect for paddlers of all ages and skill levels on ponds, lakes or slow moving rivers. You'll have no problems turning, tracking, accelerating quickly or cruising efficiently. Stability is maximized with an oversized cockpit for that comfy feeling all over. R&D designed this one with touring-style deck rigging for quick access to all your favorite gear. And speaking of favorites, this one comes with our Performance Fit System,[™] which features a Thermofoam Seat and Back pads along with Keepers[™] foot braces.

9.0

Length: 9' 2" (2.79m) | Width: 27.75" (27.75cm)
Weight: 38lbs (70.49kg) | Deck Height: 12.5" (31.75cm)
Maximum Load: 220lbs (100.00kg)
Cockpit: 38" x 21" (96.52 x 53.34cm)
