TOURING KAYAKS

Slicing through open water, a Dagger touring kayak speaks only of discovery. Of discovering a cockpit that is truly comfortable. Of finding hatches of unprecedented volume. Of uncovering a hull as efficient and responsive as it is long and elegant. As these boats seemingly render distance irrelevant, there comes the realization that you cannot be lost when you are free to go wherever you choose.

1 HURRICANE HATCH

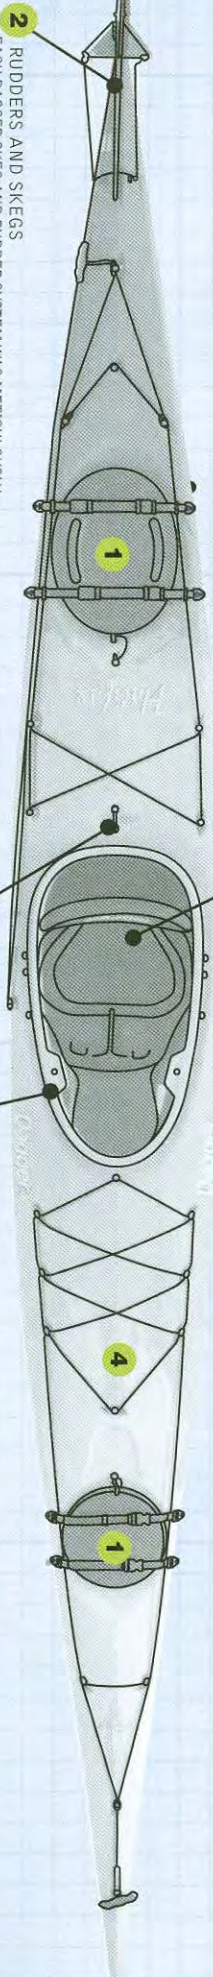

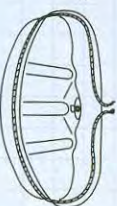

THIS YEAR, WE'RE PROUD TO FEATURE HURRICANE HATCH COVERS ON ALL OF OUR ROTOMOLDED TOURING KAYAKS OVER 15'. A MOLDED RUBBER INTERNAL COVER AND AN EXTERNAL HARD SHELL MAKE A WATERTIGHT, BOMBPROOF HATCH COVER THAT'S A CINCH TO OPEN AND CLOSE. COMBINED WITH OUR WELDED BULKHEADS YOU CAN BE SURE THAT YOUR GEAR WON'T BE THE LEAST BIT MOIST, MUCH LESS SOAKING WET.

Most other boat companies have a standard one- or two-color palette. Not us. Our unique approach to the rotomolding process produces multi-colored boats with molded-in polyethylene graphics and high-definition decks making each Dagger kayak a unique work of art. But they don't just look better, they paddle better, as well. Every model has a state-of-the-art hull design, and they all come with some of the most impressive performance features you'll find.

4 BULKHEAD CONSTRUCTION

Unless you've ever owned a kayak with a leaky one, you've probably never paid much attention to your bulkheads. Many are made of minicell foam and sealed with silicone. We offer an alternative. Almost all of our touring bulkheads are constructed of thermofomed polyethylene and electronically welded in place. During assembly, a length of cable is laid into a channel around the edge of the bulkhead. The unit is placed in the boat and a small current is passed through the cable. This gently melts the plastic around it and welds the bulkhead into the boat. The edges are then lined with silicone to ensure a durable and secure seal. Why plastic? A plastic bulkhead takes up much less room than a foam one — giving you more room to store gear. And plastic doesn't gouge or puncture as easily as foam either. It takes quite an impact to poke a hole in polyethylene. Finally, the welding process makes the bulkhead a structural part of the boat. Your boat is rigid. Your gear is dry. And you can pay attention to your journey, not your bulkheads.

2 RUDDERS AND SKEGS

EACH DAGGER SKEG AND RUDDER SYSTEM WAS METICULOUSLY RESEARCHED AND DEVELOPED AND HAS PROVEN DURABLE, RELIABLE, SIMPLE TO USE AND EASY TO MAINTAIN. OUR RUDDERS OFFER CRUCIAL, DIRECTIONAL CONTROL IN CROSSWINDS OR CROSSCURRENTS, AND OUR SKEGS KEEP YOU TRACKING STRAIGHT. NO MATTER WHAT YOU'RE FACING, BOTH ENGAGE AND RETRACT EASILY WITH THE SIMPLE PULL OF A CORD OR LEVER, WITH A LITTLE MAINTENANCE, YOUR RUDDER OR SKEG WILL PROBABLY OUTLAST YOU. USE IT WHEN YOU NEED IT, IGNORE IT WHEN YOU DON'T. WHAT A CONCEPT.

3 STAINLESS STEEL SECURITY BAR

Made of stainless steel, attached with tamper-resistant screws and mounted in a deep recess to fit bulky cable locks, it provides an effective deterrent against would-be thieves.

5 PRECISION ADJUSTABLE THIGH BRACES

The comfort, security, safety and performance these added to our whitewater kayaks inspired us to install them on most of our S-linear touring kayaks as well. With three inches of fore and aft adjustment, a safe-but-secure hook and beefy rotomolded construction, you've never felt such control in a touring kayak. Well, maybe you have, but we bet you weren't this comfortable.

6 SEATBACKS/BACKRESTS

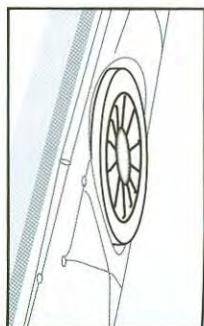

Our touring kayaks feature either adjustable, specially-designed backbands or ergonomic integrated seatbacks. Both are adjustable and extremely comfortable, and both offer the back support you need to paddle all day. And don't worry about staying dry — they're designed to fit under a spray skirt without compromising its fit.

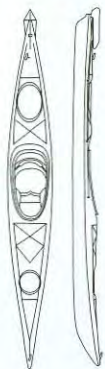

IMAGE: SCOTT SPIKER

ALL OF OUR COMPOSITE KAYAKS FEATURE KAJAK SPORT HATCH COVERS. CONSTRUCTED OF A UV-PROOF RUBBER COMPOUND, KAJAK SPORT HATCHES SEAL TIGHTLY AND EASILY GUARANTEEING YOU BOTH WATERPROOFING AND QUICK ACCESS.

KAJAK SPORT HATCH COVERS

Lightweight performance in an easily managed package for the discriminating day tripper • extremely stable and maneuverable on the water • easy to transport off the water • roomy cockpit with ergonomic thigh hooks • dual hatches with Kajak Sport hatch covers provide good storage for overnight trips • standard rudder gives you greater control • S version's cut-down deck height gives a tailored fit for the smaller paddler

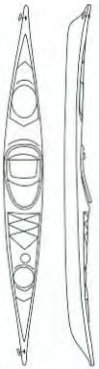

Color Options: 

Length: 14'10" (4m 52cm) | Width: 23" (58cm)
 Weight / fiberglass: 47 lbs / 21.3kg
 Weight / Aramid-reinforced: 42 lbs / 19.1kg
 Hatch Volume (bow/stern): 1700in³ / 5800in³ (28/95 liters)
 Maximum Load: 265 lbs (120kg)
 Cockpit: 31.5" x 16.5" (80 x 42cm)

Tybee / s

Versatile, seaworthy and fun to paddle • perfect for day workouts or extended tripping • the most agile touring kayak in our line • available with or without cockpit retractable skeg system • pronounced vee at the bow and stern ends with a shallow arch midship • easily accessible hatches with Kajak Sport hatch covers provide enough storage for multi-day tripping • S version's out-down deck height gives a tailored fit for the smaller paddler

Color Options: 

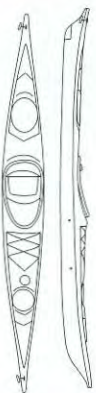

Length: 16' (4m 88cm) | Width: 22" (56cm)
 Weight / fiberglass: 53 lbs (24kg)
 Weight / Aramid-reinforced: 47 lbs (21.3kg)
 Hatch Volume (bow/stern): 3700in³ / 6200in³ (61/102 liters)
 Maximum Load: 280 lbs (127kg)
 Cockpit: 31.5" x 16.5" (80 x 42cm)

Meridian sk / s

16

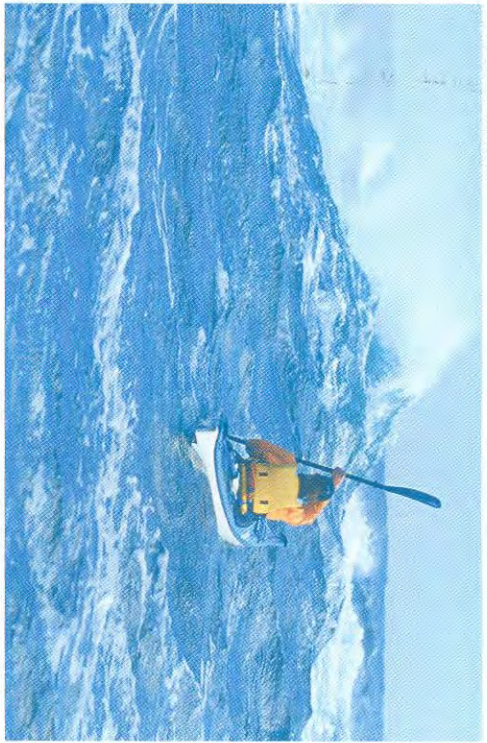

Fills the gap between the nimble Meridian and the expedition-proven Sitka • fast composite kayak that doesn't sacrifice maneuverability • semi-hard chines with Greenland-style bow • patented Integral Rudder System™ for reduced drag and increased durability • leak-proof, canted fiberglass bulkheads • dual hatches with Kajak Sport hatch covers

Color Options: 

Length: 17'4" (5m 28cm) | Width: 22" (56cm)
 Weight / fiberglass: 52 lbs (23.6kg)
 Weight / Aramid-reinforced: 48 lbs (21.8kg)
 Hatch Volume (bow/stern): 5100in³ / 9000in³ (84/147 liters)
 Maximum Load: 300 lbs (136kg)
 Cockpit: 31.5" x 16.5" (80 x 42cm)

Latitude

>> IMAGE: JACK PARKER

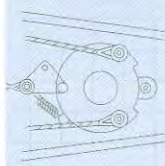

Dagger composite kayaks are handmade in a state-of-the-art facility using only the finest materials available. Every detail on every kayak — fiberglass and aramid fiber — is designed, constructed and scrutinized by some of the most experienced boat makers in the world. This combination of handcrafting, attention-to-detail and use of modern technologies results in an extensive line of high-performance composite kayaks that go unrivaled on the market and on the water.

COMPOSITE CONSTRUCTION

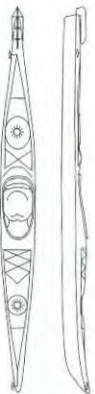

BUILDING A COMPOSITE KAYAK TAKES TIME. ALL OF OUR COMPOSITES ARE PAINTED, LAID UP AND ASSEMBLED ENTIRELY BY HAND USING THE BEST MATERIALS AVAILABLE. EVERY SINGLE MODEL USES AT LEAST THREE DIFFERENT TYPES OF CLOTH, EACH CHOSEN FOR A SPECIFIC PURPOSE. HIGH WEAR AREAS OF THE BOAT ARE REINFORCED WITH EXTRA LAYERS (AS MANY AS FIVE) OF WHATEVER MATERIAL IS RIGHT FOR THE JOB. TO CHOOSE WHICH COMPOSITE BOAT IS RIGHT FOR YOU — FIBERGLASS OR ARAMID FIBER — CONSIDER YOUR PADDLING SPOTS AND EACH LAY UP'S RESPECTIVE ADVANTAGES. FIBERGLASS EXHIBITS GOOD STRENGTH-TO-WEIGHT RATIO, HULL RIGIDITY AND EASE OF REPAIR. ARAMID FIBER'S STRENGTH-TO-WEIGHT RATIO IS FAR SUPERIOR TO THAT OF FIBERGLASS, RESULTING IN LIGHTER BOATS. IT'S ALSO MUCH MORE RESILIENT THAN GLASS CLOTH. FIBERGLASS TENDS TO FRACTURE AFTER HITTING SOMETHING WHILE ARAMID FIBER FLEXES, MAKING IT BETTER FOR EXPEDITION USE AND ABUSE. THE ONE DRAWBACK OF ARAMID FIBER: IT'S SOMEWHAT DIFFICULT TO REPAIR BECAUSE IT FRAYS WHEN SAWED. FOR THIS REASON, OUR ARAMID BOATS FEATURE A THIN OUTER LAYER OF FIBERGLASS. IT ADDS VERY LITTLE WEIGHT AND IT TAKES THE SERIOUS HEADACHES OUT OF REPAIR WORK.

INTEGRAL RUDDER SYSTEM™ (IRS)

OUR PATENTED INTEGRAL RUDDER SYSTEM™ (IRS) ADDS ABSOLUTELY NO WIND RESISTANCE, SIGNIFICANTLY LESS DRAG THAN A DROP RUDDER, WORKS WELL WHEN THE BOAT IS HEELED AND DOESN'T HANG UP IN BRUSH OR ON YOUR ROOF RACK.

Color Options: 

Length: 17'6" (5m 33cm) | Width: 20.25" (51cm)
 Weight/Fiberglass: 51lbs (23.1kg)
 Weight/Aramid-reinforced: 47lbs (21.3kg)
 Hatch Volume (bow/stern): 5200in³/9150in³ (85/150 liters)
 Maximum Load: 280lbs (127kg)
 Cockpit: 31.5" x 16.5" (80 x 42cm)

Composite version of our quick polyethylene model • hard chines, narrow width, low deck, trimmed beam and full length combine to create a super-efficient kayak for racing, workouts, long-distance touring and cruising • retractable rudder comes standard • leak-proof, canted fiberglass bulkheads • dual hatches with Kajak Sport hatch covers provide plenty of storage

Cortez | 17.5

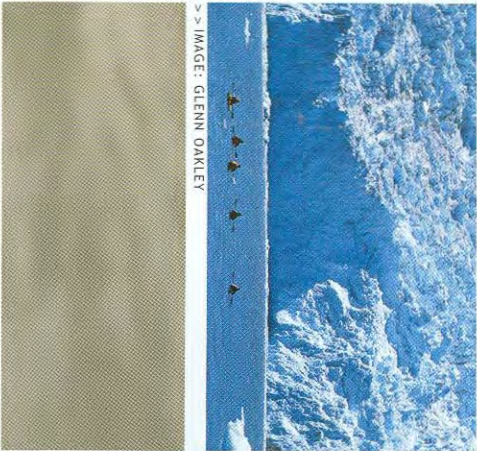

Color Options: 

Length: 17'1" (5m 46cm) | Width: 22" (56cm)
 Weight/Fiberglass: 63lbs (28.6kg)
 Weight/Aramid-reinforced: 57lbs (25.9kg)
 Hatch Volume (bow/stern): 7400in³/9700in³ (121/159 liters)
 Maximum Load: 320lbs (145kg)
 Cockpit: 31.5" x 16.5" (80 x 42cm)

High-volume, expedition-proven kayak • long waterline for tracking, speed and smoothing out the chop • comfortable, roomy cockpit with ergonomic seat and thigh braces for long-term comfort • cavernous dual hatches with Kajak Sport hatch covers provide ample storage capacity for expedition-length trips • patented Integral Rudder System™ for reduced drag and increased durability • day hatch offers quick access from the cockpit

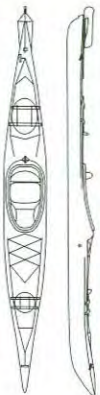

Sitka

A fast, expedition-capable ride for the small to mid-size paddler • adapted from the well-loved Baja • tracks hard, carves well and responds quickly to a lean • standard retractable rudder remains ready for deployment in wind and strong currents • spacious compartments for multi-day tripping • Hurricane hatch covers • electronically welded bulkheads • Precision adjustable thigh braces

Length: 15'6" (4m 72cm) | Width: 22.5" (57cm) | Weight: 55lbs (24.9kg) | Cockpit: 34" x 19" (86 x 48cm)
Hatch Volume (bow/stern): 2000l/16500l (33/107 liters) | Maximum Load: 265lbs (120kg)

Color Options:

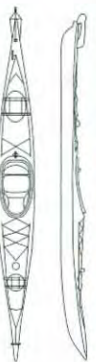

Prospect

Expedition-ready polyethylene boat for the larger paddler that was adapted from the proven Atlantis mold • greatest load capacity of our S-Linear touring kayaks • increased knee room for long-range comfort • retractable rudder for both maneuverability and tracking • Hurricane hatch covers • electronically welded bulkheads • Precision adjustable thigh braces

Length: 17'2" (5m 23cm) | Width: 23.5" (60cm) | Weight: 70lbs (31.8kg) | Cockpit: 34" x 19" (86 x 48cm)
Hatch Volume (bow/stern): 4750l/8400l (78/138 liters) | Maximum Load: 360lbs (163kg)

Color Options:

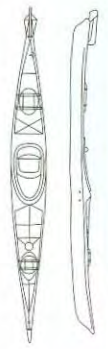

Halifax

Comfort and versatility in a mid-sized boat for the beginner to advanced paddler • Sharp entry line slices efficiently through water • excellent blend of speed, stability, tracking and maneuverability • voluminous bow and stern storage • extremely comfortable cockpit • electronically welded bulkheads • Hurricane hatch covers • Precision adjustable thigh braces • optional rudder

Length: 16'6" (5m 3cm) | Width: 22.5" (57cm) | Weight: 61lbs (27.7kg) | Hatch Volume (bow/stern): 4200in³/7200in³(69/118 liters) | Maximum Load: 315lbs (143kg) | Cockpit: 34" x 19" (86 x 48cm)

Color Options:

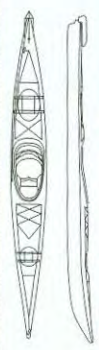

Magellan

Our fastest S-Linear sea kayak yet • hard chines, narrow width, low deck, trimmed beam and full length combine to create a super-efficient kayak for racing, workouts, long-distance touring and cruising • for the paddler who wants a more advanced design found previously only in high-end composite kayaks • standard retractable rudder for uncompromised performance in the worst conditions • electronically welded bulkheads • Hurricane hatch covers • Precision adjustable thigh braces

Length: 16'6" (5m 3cm) | Width: 21.625" (55cm) | Weight: 54lbs (24.5kg) | Hatch Volume (bow/stern): 4050in³/7150in³(66/117 liters) | Maximum Load: 300lbs (136kg) | Cockpit: 34" x 19" (86 x 48cm)

Color Options:

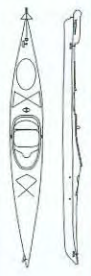

Cortez

Stable, user-friendly hull design tracks well and is responsive when leaned on edge • entry-level boat for smaller paddlers who plan on day-tripping or weekend touring • superb for everything from rivers to lakes to bays • good tracking and maneuverability makes a great all-around kayak • optional thigh braces can be added for more control • Sure-Seal hatch cover • optional electronically welded bulkhead • optional rudder

Length: 13'8" (4m 17cm) | Width: 24" (61cm) | Weight: 51lbs (23.1kg) | Hatch Volume (stern): 5500in³ (90 liters) | Maximum Load: 205lbs (93kg) | Cockpit: 34" x 19" (86 x 48cm)

Color Options:

Callisto

> IMAGE: PAUL WILLARD

Stability and maneuverability in a feature-filled light-touring package • stable and quick with excellent hull speed and enhanced tracking • perfect for day trips with enough storage for overnighters • standard drop steg for straight tracking • padded seat and backrest • bow and stern bulkheads and hatches with Sure-Seal hatch covers

Length: 14' (4m 27cm) | Width: 24" (61cm) | Weight: 49lbs (22.2kg) | Hatch Volume (bow/stern): 19000in³/5100in³ (31/84 liters) | Maximum Load: 285lbs (129kg) | Cockpit: 34" x 19" (86 x 48cm)

Color Options:

Charleston

A manageably sized kayak with a full-size bow hatch and bulkhead • one of our most versatile boats • forgiving, easy-to-paddle design perfect for mid-size to large beginners • stable, responsive and maneuverable enough for rivers • ample bow and stern storage capacity for a long weekend • optional thigh braces can be added for more control • Sure-Seal hatch covers • optional electronically welded bulkheads • optional rudder

Length: 14'6" (4m 42cm) | Width: 25" (64cm) | Weight: 53 lbs (24kg) | Hatch Volume (bow/stern): 15000in³/5100in³ (25/84 liters) | Maximum Load: 300lbs (136kg) | Cockpit: 34" x 19" (86 x 48cm)

Color Options:

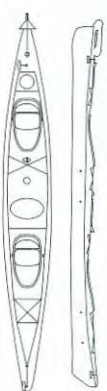

Savannah

Our polyethylene tandem sea kayak with wide beam for stability in all conditions • long waterline for excellent speed and tracking • roomy cockpits for all-day comfort • water-shedding bow design • large stern and center hatches with Hurricane hatch covers • Precision adjustable thigh braces

Length: 17'5" (5m 31cm) | Width: 29" (74cm) | Weight: 85lbs (38.6kg) | Hatch Volume (center/stern): 8000in³/3500in³ (13/57 liters) | Maximum Load: 450lbs (204kg) | Cockpit: 34" x 19" (86 x 48cm)

RECREATIONAL

KAYAKS

Pull the plug on the hard drive and put the family in a few of our recreational kayaks. Well, we call them recreational. But they're actually the products of months of hard work. Because we spend just as much time developing their performance characteristics as we do those of our touring and whitewater models. That effort results in some of the most stable and efficient boats available in the category. And it's this performance that will erase the glazed look from your children's eyes and awaken them to their green and blue surroundings as if for the first time. That's when they'll realize there's a very cool alternative to virtual reality. It's called — simply enough — reality.

>> IMAGE: PAUL WILLARD

>> IMAGE: SCOTT SPIKER

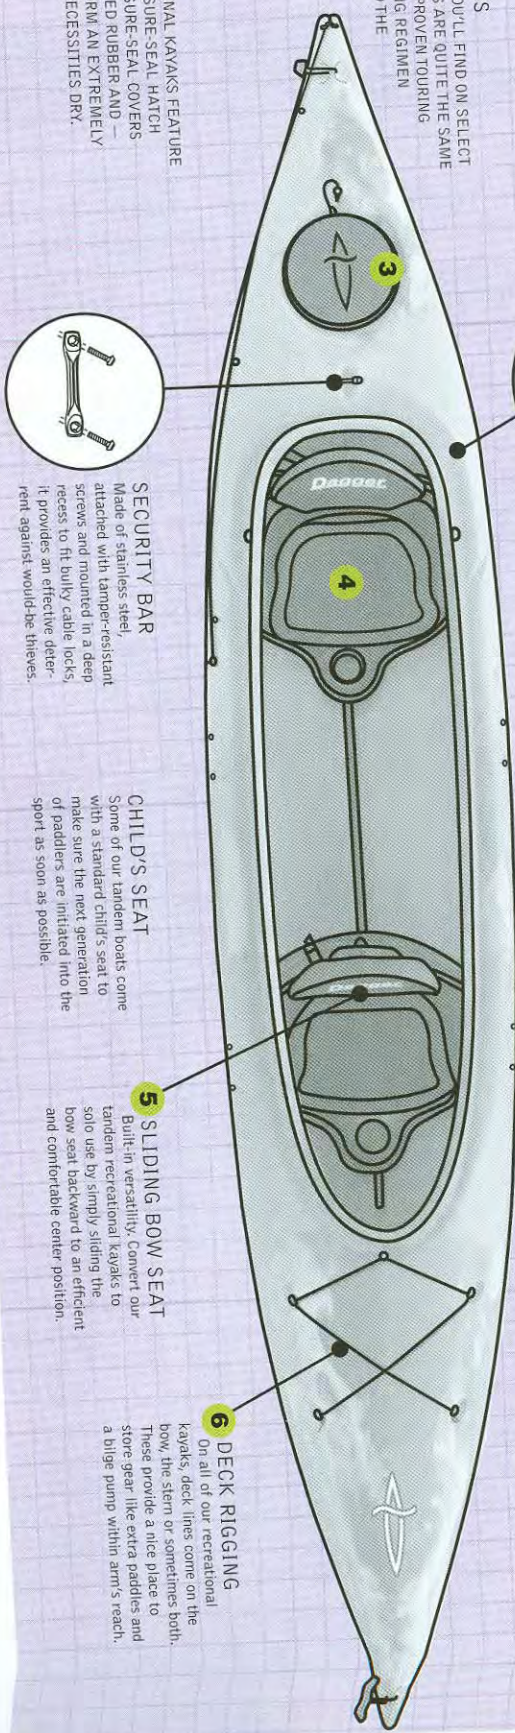

1 SKIN FOAM TECHNOLOGY
 MOST OF OUR RECREATIONAL KAYAKS ARE MADE FROM OUR EXCLUSIVE SKIN FOAM CONSTRUCTION. SKIN FOAM TECHNOLOGY WAS DEVELOPED TO INCREASE HULL STRENGTH AND PROVIDE ADDITIONAL FLotation PROPERTIES. WE ACCOMPLISH THIS BY AERATING THE INNER LAYER OF PLASTIC DURING MANUFACTURING. THE RESULTING AIR BUBBLES ON THE INTERIOR PROVIDE RIGIDITY TO THE HULL AND KEEP THE KAYAK FLOATING HIGH IN CASE OF A CAPSIZE.

2 SKEGS AND RUDDERS
 THE SKEGS AND RUDDERS YOU'LL FIND ON SELECT DAGGER RECREATIONAL KAYAKS ARE QUITE THE SAME AS THOSE ON OUR EXPEDITION-PROVEN TOURING KAYAKS. EVEN IF YOUR PADDLING REGIMEN INCLUDES MORE TRIPS AROUND THE POND THAN AROUND THE CAPE, YOU'LL APPRECIATE THEIR DURABLE, RELIABLE, LOW-MAINTENANCE PERFORMANCE.

3 STERN HATCH
 SEVERAL OF OUR RECREATIONAL KAYAKS FEATURE LARGE STERN HATCHES WITH SURE SEAL HATCH COVERS FOR WEEKEND GEAR. SURE SEAL COVERS ARE MADE OF UV-PROOF MOLDED RUBBER AND — AS THE NAME SUGGESTS — FORM AN EXTREMELY SECURE SEAL TO KEEP YOUR NECESSITIES DRY.

Recreational kayaks are a great way to introduce yourself or your family to paddling. These boats are stable, versatile, low maintenance and easy to paddle. Their ease of paddling and reasonable load makes them perfect for hunting, fishing and photography, too. Plus, they're full of the comfort and performance features you see here.

4 SEAT BACKS AND PADS
 We recently redesigned all of our recreational kayak seat backs and pads. You'll appreciate the thicker padding, more durable fabric and mesh dirty bag/water bottle holder. Our folding seat backs, as always, are tall enough for all-day back support, but short enough that they don't interfere with sprayskirt fit.

SECURITY BAR
 Made of stainless steel, attached with tamper-resistant screws and mounted in a deep recess to fit bulky cable locks. It provides an effective deterrent against would-be thieves.

CHILD'S SEAT
 Some of our tandem boats come with a standard child's seat to make sure the next generation of paddlers are initiated into the sport as soon as possible.

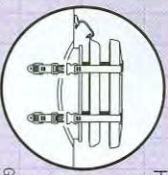

5 SLIDING BOW SEAT
 Built-in versatility. Convert our tandem recreational kayaks to solo use by simply sliding the bow seat backward to an efficient and comfortable center position.

6 DECK RIGGING
 On all of our recreational kayaks, deck lines come on the bow, the stern or sometimes both. These provide a nice place to store gear like extra paddles and a bilge pump within arm's reach.

HURRICANE HATCH

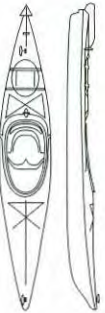

FEATURED ON THE WILLOW, WITH A MOLDED RUBBER INTERNAL COVER AND AN EXTERNAL HARD SHELL, THEY COMBINE THE SECURITY OF THE NEOPRENE HATCHES WITH THE EFFICIENCY OF THE MOLDED RUBBER COVERS. FOR YOU, THIS MEANS A WATERIGHT, BOMBPROOF HATCH COVER THAT'S A CINCH TO OPEN AND CLOSE. COMBINED WITH GLASS-IN-PAINTED BULKHEADS YOU CAN BE SURE THAT YOUR GEAR WON'T BE THE LEAST BIT MOIST, MUCH LESS SOAKING WET.

COMPOSITE CONSTRUCTION FEATURED ON THE WILLOW

BUILDING A COMPOSITE KAYAK TAKES TIME. ALL OF OUR COMPOSITES ARE PAINTED, LAID UP AND ASSEMBLED ENTIRELY BY HAND USING THE BEST MATERIALS AVAILABLE. EVERY SINGLE MODEL USES AT LEAST THREE DIFFERENT TYPES OF CLOTH, EACH CHOSEN FOR A SPECIFIC PURPOSE. HIGH WEAR AREAS OF THE BOAT ARE REINFORCED WITH EXTRA LAYERS (AS MANY AS FIVE) OF WHATEVER MATERIAL IS RIGHT FOR THE JOB. TO CHOOSE WHICH COMPOSITE BOAT IS RIGHT FOR YOU — FIBERGLASS OR ARAMID FIBER — CONSIDER YOUR PADDLING SPOTS AND EACH LAY-UP'S RESPECTIVE ADVANTAGES. FIBERGLASS EXHIBITS GOOD STRENGTH-TO-WEIGHT RATIO, HULL RIGIDITY AND EASE OF REPAIR. ARAMID FIBER'S STRENGTH-TO-WEIGHT RATIO IS FAR SUPERIOR TO THAT OF FIBERGLASS, RESULTING IN LIGHTER BOATS. IT'S ALSO MUCH MORE RESILIENT THAN GLASS CLOTH (FIBERGLASS TENDS TO FRACTURE AFTER HITTING SOMETHING WHILE ARAMID FIBER FLEXES), MAKING IT BETTER FOR EXPEDITION USE AND ABUSE. THE ONE DRAWBACK OF ARAMID FIBER: IT'S SOMEWHAT DIFFICULT TO REPAIR BECAUSE IT FRAYS WHEN SANDED. FOR THIS REASON, OUR ARAMID BOATS FEATURE A THIN OUTER LAYER OF FIBERGLASS. IT ADDS VERY LITTLE WEIGHT AND IT TAKES THE SERIOUS HEADACHES OUT OF REPAIR WORK.

Dagger's first composite recreational boat • extremely light, rigid and stable design • beautiful lines, confidence-inspiring stability, excellent maneuverability and touring-kayak efficiency • lightweight design and comfortable outfitting make it great for day-tripping and family outings • optional rudder • fiberglass and AR lay ups available • Hurricane hatch covers

Color Options:

Length: 12' (3m 66cm) | Width: 25" (64cm)

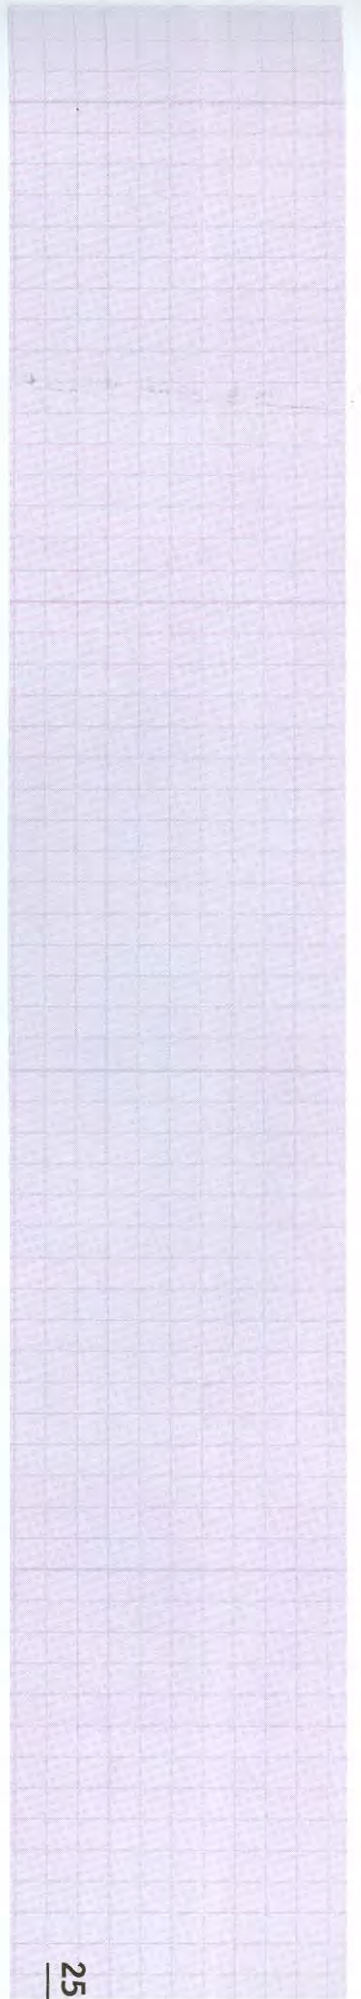

Weight/Fiberglass: 39lbs (17.7kg)

Weight/Aramid-reinforced: 34lbs (15.4kg)

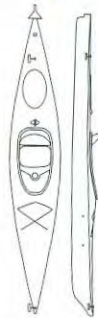

Cockpit: 34" x 19" (86 x 48cm)

Maximum Load: 275lbs (125kg)

Willow

Fastest rec kayak in our line • bridges the gap between recreational and touring • keyhole-sized cockpit for snug fit and greater control • great stability for beginners • roomy enough for multi-day trips • padded, hinged high-back seat for comfort • stem hatch with Sure-Seal hatch cover and optional bulkhead • optional rudder • durable Skin Foam construction

Color Options:

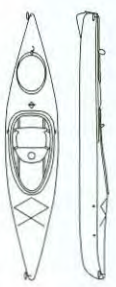

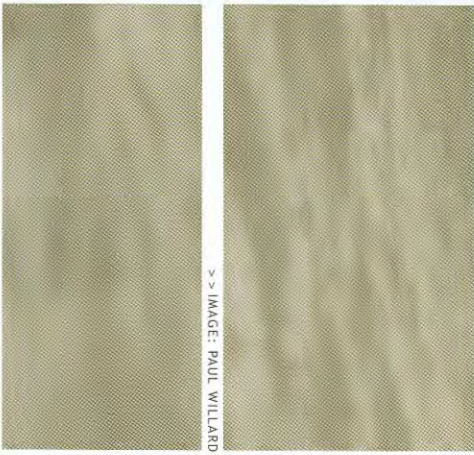

Length: 12'11" (3m 94cm) | Width: 26.5" (67cm)
 Weight: 55lbs (24.9kg) | Cockpit: 34" x 19" (86 x 48cm)
 Maximum Load: 280lbs (127kg)

Cypress

> IMAGE: SCOTT SPIKER

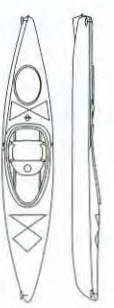

Color Options:

Length: 10'6" (3m 20cm) | Width: 26" (66cm)
 Weight: 44lbs (20kg)
 Cockpit: 36" x 21" (91 x 53cm)
 Maximum Load: 235lbs (107kg)

The lightest, most portable boat in the Blackwater series • great for family day trips and nature watching on ponds, lakes and streams • excellent stability and a padded seat for comfort • standard drop skeg for true tracking • stem hatch with Sure-Seal hatch cover and optional bulkhead

Blackwater | 10.5

Color Options:

Length: 11'6" (3m 51cm) | Width: 25.25" (64cm)
 Weight: 45lbs (20.4kg)
 Cockpit: 36" x 21" (91 x 53cm)
 Maximum Load: 280lbs (127kg)

The original Blackwater design that's gained a loyal following • stable, responsive kayak suitable for all ages and skill levels • handles everything from ponds to lazy streams • padded seat for comfort • standard drop skeg for maneuverability when not in use and arrow-straight tracking when deployed • stem hatch with Sure-Seal hatch cover and optional bulkhead

Blackwater | 11.5

> IMAGE: PAUL WILLARD

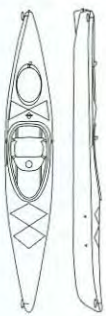

Last year, when we introduced the Blackwater, we had no idea it would quickly become one of our most popular recreational kayaks ever. Maybe it was the spacious storage compartment, maybe it was the retractable skeg, maybe the pleasantly surprising mix of speed, maneuverability and glide. We like to think it was because the Blackwater was an entirely unique creation. No other boat in its price range offers comparable performance and features. Whatever the reason for its initial success, our dealers and the paddling public began asking for more. How about one that's a little shorter and even more stable? Or one that's slightly longer for better speed? And how about a tandem? We listened.

So without further ado, Dagger is pleased to introduce the new members of the 2002 Blackwater lineup. The Blackwater 10.5, the Blackwater 12.5 and the Blackwater 13.5 Tandem. Also present is the original Blackwater, now known as the Blackwater 11.5. Now there's a Blackwater for every need: from sporting to workouts, family afternoon cruises to weekend camping trips. There's even a new tandem. Best of all, each includes all of the features that made the original Blackwater so great — the stern hatch, the retractable skeg, and characteristic Blackwater value and performance. See below for more specifics on each. We think you'll be pleased.

Delivers the best speed and tracking of the Blackwater series • efficiency is great for workouts or weekend tripping • confident handling in waves and wind • padded seat for comfort • stern hatch with Sure-Seal hatch cover and optional bulkhead • standard drop skeg

Color Options:

Length: 12'6" (3m 81cm) | Width: 25" (64cm)
 Weight: 50lbs (22.7kg)
 Cockpit: 36" x 21" (91 x 53cm)
 Maximum Load: 295lbs (134kg)

Blackwater | 12.5

The most versatile family kayak in the Blackwater series • bow seat moves to center for efficient solo paddling • stable and nimble, but with quick acceleration and good speed for longer trips • comfortable, padded seats • stern hatch with Sure-Seal hatch cover and optional bulkhead • standard drop skeg • durable skin foam construction

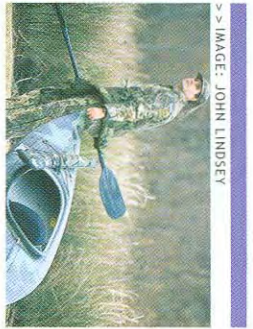

Color Options:

Length: 13'6" (4m 11cm) | Width: 30" (76cm)
 Weight: 69lbs (31.3kg)
 Cockpit: 80" x 21" (203 x 53cm)
 Maximum Load: 475lbs (216kg)

Blackwater | 13.5

you are reading the REC KAYAK SECTION.

>> IMAGE: JOHN LINDSEY

A recreational kayak for all occasions • super-stable, easy-to-paddle design for fishing and sporting use on lakes and streams • balanced maneuverability and tracking • great for beginners • comfortable, padded high-back seat • durable skin foam construction

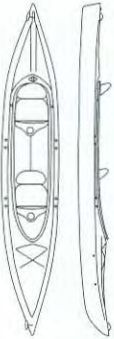

Color Options: 
 Length: 10'6" (3m 25cm) | Width: 28" (71cm)
 Weight: 45 lbs (20.4kg)
 Cockpit: 36" x 21" (91 x 53cm)
 Maximum Load: 250 lbs (113kg)

Bayou

Stable, versatile tandem version of the Bayou • good speed and tracking make this a great family kayak • efficient hull design is at home on lakes and flatwater • easy turning for exploring backwaters • sliding bow seat moves to center for solo paddling • padded high-back seats • durable skin foam construction

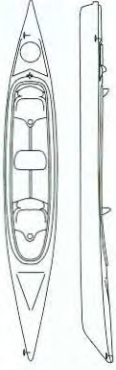

Color Options: 
 Length: 13'6" (4m 11cm) | Width: 30" (76cm)
 Weight: 65 lbs (29.5kg)
 Cockpit: 80" x 21" (203 x 53cm)
 Maximum Load: 450 lbs (204kg)

Bayou II

Dagger's fastest recreational tandem • generous cockpit opening and more volume than the Bayou II for heavier loads • longer length for superior tracking and hull speed • sliding bow seat for solo paddling • deep design to keep you dry • stem hatch with Sure-Seal hatch cover and standard bulkhead • padded high-back seats • standard child's seat • optional rudder • durable skin foam construction

Color Options: 
 Length: 15'6" (4m 72cm) | Width: 30" (76cm)
 Weight: 68 lbs (30.8kg)
 Cockpit: 91" x 21" (231 x 53cm)
 Maximum Load: 500 lbs (227kg)

Drift
