SEATING SYSTEMS

PHASE 3®

Amazingly comfortable, patented outfitting with adjustment settings for backrest and leglifter that can be adjusted on the fly. Phase 3 Lite does not include backrest adjustment options.

PHASE 3® SOT

This patented Phase 3 technology designed for sit on tops is engineered with a high-density foam seat for air circulation. Height-adjustable backrest and leg supports allow repositioning on the fly.

PHASE 3® XP

Comfortable and ergonomic outfitting package based on trusted, patented Phase 3 technology. Consists of leg lifter, touring backband, and seatpads that contour to your body shape.

HARMONY® DELUXE SOT

This comfortable sit-on-top seat features a skid resistant bottom and nylon-covered foam backing. Nylon webbing is engineered with corrosion resistant features for longevity.

FREEDOM ELITE (COMMANDER)

Superior comfort and versatile use, the fully removable and stowable seat features an oversized backrest with leg lifter for full-body support. Also slides fore and aft in kayak. (Patent pending)

FREEDOM ELITE (RIDE)

Use the Ride's newly designed sliding, removable Freedom Elite Seating System to trim your position on the fly for launching through surf, or adjust maneuverability for river performance or tracking.

HATCH COVERS

KAJAK SPORT

The industry standard in rugged hatches, the Kajak Sport offers a reliable, water tight seal from the combination of a double sealing design and next-gen material construction.

ORBIX LOCKING

Innovative "turn-and-lock" hinged hatch cover makes gear access an easy affair. Latching cover with a tight seal is just as easy, simply lock in place with the lever.

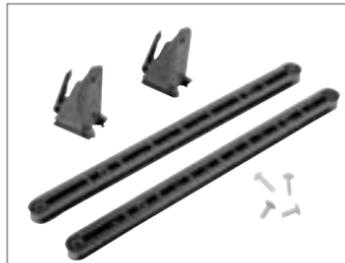

DOMED

Durable push-on hatch covers make gear access easier than ever, while offering even drier storage from a true fitting, watertight seal.

FOOT BRACES

KEEPERS

Durable footpads reposition smoothly to one of many length settings by reaching forward with your hands to engage with track. Featured on most sit-on-top and rudder models.

SLIDELOCK™

Patented, precision adjustment of footpads for comfort and control is simple and convenient. Side located wands make it possible to reposition by hand on the fly without leaving the seat.

HANDLES

SOFT TOUCH & COMFORT CARRY

Ergonomic handles conform to the hand shape. Handle construction materials deliver a secure and comfortable grip. Loading, unloading, and carrying a kayak is easier than ever.

RUDDERS

BLADE TRACKING SYSTEM

Take control and gain paddling efficiency in windy and choppy conditions or in fast current. Rudder kayak models come with the BTS Rudder kit pre-installed.

RUDDER READY MODELS

Many models ship "rudder ready" with internal tubing that houses rudder cables pre-installed for simple, rapid addition of after-market rudder kits.

KAYAK KONSOLE

KAYAK KONSOLE

Carry your gear with the easy access center console. Includes Orbix locking hatch, universal cup holder, mesh pocket, and gear trays with plenty of dry storage space.

SKEG

TRUTRAK SKEG SYSTEM

Performance and reliability are at the heart of our premium skieg system for our 2011 touring and expedition kayaks. Durable construction and hydrofoil shape offer more efficient water mending for an overall improved paddling performance when deployed. The system enclosure has also been reengineered for more durability, with the blade housing design now being easier to perform any repairs needed over time.

ACCESSORIES

ADVENTURE TECHNOLOGY PADDLES

Tested in relentless conditions around the globe and fine-tuned for the calm never-ending horizon, Adventure Technology is the unquestionable leader in advanced kayak paddle design. Superior control and comfort from patented designs are built with the lightest, strongest and most durable materials available.

Available features:

- Full-Control Grip (FCG)
- Carbon and other Ultralite materials
- Unibody Construction
- SmartSet adjustment technology
- Braided Fiber Construction

SYNAPSE FERRULE WITH SMARTSET TECHNOLOGY

- Feather angle automatically rests to previously used feather angle during assembly
- Quick and easy adjustment without taking shafts apart
- Efficient, low-weight internal system design
- Low profile design means no bumps or snags while paddling
- Patent Pending

HARMONY GEAR

Gear and Accessories

Harmony is our trusted provider of quality paddling gear to help you get the most out of your kayak experience. Get a complete assortment of items to enhance the paddling experience.

- Wilderness Systems branded Hats and Apparel
- Care and Repair
- Paddles, PFDs, Sprayskirts
- Kayak Outfitting
- Books and Guides
- And much more
- Dry Storage

View our assortment and buy online at www.harmonygear.com.

BOMBER GEAR

Premium sprayskirts and dry technical apparel for sea kayaking and touring. Features material bonding techniques that set the standard in innovation and durability.

To see full line of apparel visit www.bombergear.com.

BOAT SPECS

HOW WE GET THEM, WHAT THEY MEAN

WEIGHT

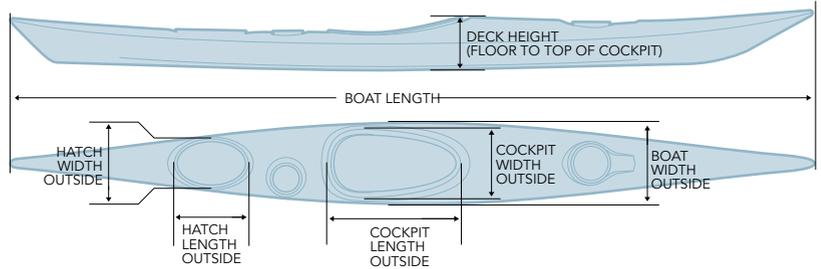

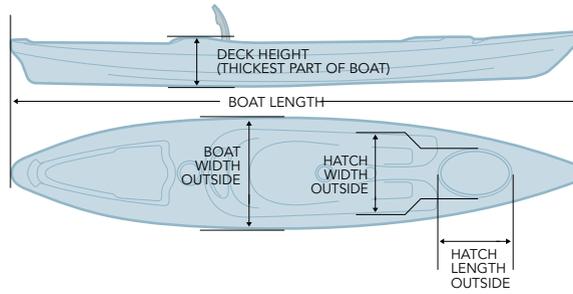

Based on a fully assembled boat including all outfitting. (NOTE: Other companies may not include outfitting in their weight specifications.)

CAPACITY

Field tests determine each model's capacity, with maximum being the greatest load the model can carry and still perform under typical conditions.

DIMENSIONS

Measured at points indicated by the accompanying diagrams. Touring boat depths are measured from the floor of the boat to the top of the cockpit.

PAMLICO					COCKPIT		STERN HATCH		BOW HATCH		MAX CAPACITY
	LENGTH	WIDTH	WEIGHT	DEPTH	LENGTH	WIDTH	LENGTH	WIDTH	LENGTH	WIDTH

Prices shown are based on US Manufacturer's Suggested Retail Price and are subject to change.

All Wilderness Systems kayaks are designed and manufactured in the U.S.A., excluding composite-construction Pro models.

Colors may vary slightly from those shown in catalog. Color combinations (Mango and Camo) will vary from those shown in catalog and are unique for each boat we produce. Variations in color are not covered by warranty.

Polyethylene expands and contracts with changes in temperature and humidity. Actual dimensions can vary from those shown in the Specifications Chart due to molding process and/or exposure to extreme hot or cold temperatures. Slight variations are not covered by warranty.
