DAGGER

HISTORY

For the folks at Dagger, paddling has always been a way of life. For nearly 20 years our kayaks have been used on rivers, lakes, oceans, and waterways around the world. From the very beginning, to this day our philosophy has been simple; make comfortable boats that perform well and exceed the paddler's expectations.

But along this paddling timeline we have discovered even more than we would have imagined back in the early years. New technologies, better materials and advanced product design along with paddling "know how" have enabled us to push kayaking boundaries even further. Today's Dagger boats are the highest performance, strongest and lightest ever, all made possible from years of hard work, river miles and a commitment to kayaking.

So as you hop into a Dagger Kayak it's easy to see why we have a reputation for making the best boats. Our mission is the same as it was from day one; to design boats that you absolutely enjoy paddling and that allow you to experience the unrivaled joy of being on the water.

DAGGER SAFETY INITIATIVE

Let's face it, paddling is fun. It doesn't matter if you are on a class II day trip or a class V exploratory mission, being on the river makes you happy. But along with the fun comes responsibility. That's why Dagger Kayaks is the first whitewater kayak company to offer up a series of FREE safety classes designed to help educate paddlers for emergency situations. Set in a classroom format, the Dagger Safety Initiative (DSI) is a one day dry land training class that will teach you the fundamentals of river awareness. While it is easy for anyone to go into a paddle shop and get all the gear and head to the river, it is our goal to give you the knowledge of "what to do" when your day on the river does not go as planned. From throw rope practice and scenarios to choosing the proper equipment, our class is designed to offer you basic safety knowledge and insight that will benefit you and your paddling partners. The DSI program is endorsed by American Whitewater and instructed by nationally recognized SWR instructor and Team Dagger safety man, Mike Mather. Stay tuned to www.teamdagger.com for dates and locations of upcoming DSI classes near you.

TEAM D

It is tough to describe the history and legacy that goes in to being on Team Dagger. Our Team has represented the purest form of whitewater paddlers. World Champions, World record holders and World travelers. But beyond the glory of a new waterfall record there is the same Team Dagger that teaches roll clinics, offers free beginner classes, donates time to charity or has started a paddling program to benefit those that might otherwise never get a chance to experience kayaking. Our Team not only pushes the sport to new levels but also enjoys giving back and encouraging others. Anna Levesque started 'Girls at Play' while Hobie helped create 'Paddle with the Pros' and was recently named along with Anna as an American Whitewater Athlete Ambassador. And then there is Brad Ludden and 'First Descents', a kayak camp for young adults living with cancer. Our Team knows it not just about the victories but about making contributions and getting people on the water. Dagger is proud to support the men and women of Team D and all they do for the sport of kayaking.

WHITEWATER KAYAKS

Often viewed as the more extreme side of paddling, whitewater kayaking offers something for everyone. For some it is the experience of paddling remote rivers. For others it's a quick trip to your local play park. Regardless of your style, nothing beats a day floating on the river. And here at Dagger, we make the boats for all those adventures. River running, creeking or play boating, our boats are designed to be light, comfortable, dry, easy to roll, and above all, fun to paddle! Our Team of paddlers have been scouring the planet and testing these boats to their limits. When you paddle a Dagger boat, you know you are paddling the kayak that will allow you to reach your full potential.

AGENT 6.0:

Dynamic playboating for the smaller paddler. Get ready to paddle at the next level.

SPECS:

Length	6' / 180 cm	Weight	28.5 lbs / 13 kg
Width	24" / 61 cm	Cockpit	34" x 18.75" / 85cm x 47cm
Volume	42gal / 158 L	Deck Height	11" / 28 cm
Paddler Weight Range	80-145 lbs. / 36 kg-65 kg		

AGENT 6.4:

Big boys rejoice in a comfortable play boat that performs anywhere.

SPECS:

Length	6'4" / 190 cm	Weight	31.5 lbs. / 14.25 kg
Width	25.75" / 65.5 cm	Cockpit	34" x 18.75" / 85cm x 47cm
Volume	59 gal / 223 L	Deck Height	13" / 33 cm
Paddler Weight Range	165-225 lbs. / 74 kg-102 kg		

AGENT 6.2:

A whitewater weapon for the mid sized freestylers. Comfortable, dry, and serves up massive air and loops.

SPECS:

Length	6'2" / 185 cm	Weight	29.5 lbs. / 13.5 kg
Width	25" / 62.5 cm	Cockpit	34" x 18.75" / 85cm x 47cm
Volume	50 gal / 189 L	Deck Height	12" / 30.5 cm
Paddler Weight Range	125-190 lbs. / 56 kg-86 kg		

FEATURES:

- D – Bone Welded In Seat Track
- Foam Subframe
- Flipswitch Backband
- Precision Adjustable Thigh Braces
- Padded Foam Footbrace
- Multi Adjustable Contoured Hip Pads
- Overthrustrer by IR

COLORS:

- Red
- Orange
- Yellow
- Flame
- Blue
- Sky
- Lime

KINGPIN 6.1:

The platform by which all playboats are compared. A playful hull with slicy ends that will dominate waves and holes. Stability that affords awesome down river play.

SPECS:

Length	6'1" / 227.5 cm	Weight	33 lbs. / 15 kg
Width	23.25" / 63 cm	Cockpit	34" x 19" / 85 cm x 47.5 cm
Volume	44 gal / 166 L	Deck Height	10.75" / 26.9 cm
Paddler Weight Range	80-140 lbs. / 36.3 kg-63.5 kg		

KINGPIN 6.3:

The freedom to do what you like in comfort and control. The strategically well placed volume offers river running performance while the planning hull still allows you to throw dynamic moves.

SPECS:

Length	6'5" / 252.5 cm	Weight	35 lbs. / 16 kg
Width	26" / 68 cm	Cockpit	34" x 19" / 85 cm x 47.5 cm
Volume	56 gal / 212 L	Deck Height	11.75" / 29.4 cm
Paddler Weight Range	150-230 lbs. / 68 kg-104.3 kg		

KINGPIN 6.2:

The boat that helped shape the revolution and one of our most popular ever. Designed for big moves as well as being paddler friendly.

SPECS:

Length	6'1" / 240 cm	Weight	34 lbs. / 15 kg
Width	24.75" / 65 cm	Cockpit	34" x 19" / 85 cm x 47.5 cm
Volume	47 gal / 178 L	Deck Height	11.5" / 28.8 cm
Paddler Weight Range	100-180 lbs. / 45.4 kg-81.6 kg		

FEATURES:

- D – Bone Welded In Seat Track
- Foam Subframe
- Flipswitch Backband
- Precision Adjustable Thigh Braces
- Padded Foam Footbrace
- Tool-less Vector Seat Adjustment
- Multi Adjustable Contoured Hip Pads

COLORS:

- Red
- Orange
- Yellow
- Blue
- Sky
- Lime

RX 6.7:

A perfect hybrid of play and river running. The hull screams speed while the volume says stability. Cartwheels, surfing, down-river control and all day comfort rolled into one stylish package.

SPECS:

Length	6'7" / 197.5 cm	Weight	33 lbs. / 15 kg
Width	25.5" / 63.8 cm	Cockpit	34.75"x19" / 86.9 cm x 47.5 cm
Volume	52 gal / 196.8 L	Deck Height	10.75" / 63.8 cm
Paddler Weight Range	120-195 lbs. / 54.4 kg-88.5 kg		

RX 6.9:

More volume to allow added comfort and forgiveness but the same playful hull. From those must make eddies and attainments, to dynamic play moves the RX does it all. A great travel boat and multi tasker.

SPECS:

Length	6'8" / 200 cm	Weight	35 lbs. / 16 kg
Width	26.5" / 66.3 cm	Cockpit	34.75"x19" / 86.9 cm x 47.5 cm
Volume	58 gal / 219.5 L	Deck Height	12.0" / 30 cm
Paddler Weight Range	150-225 lbs. / 68.1 kg-102.1 kg		

FEATURES:

- D – Bone Welded In Seat Track
- Foam Subframe
- Flipswitch Backband
- Precision Adjustable Thigh Braces
- Padded Foam Footbrace
- Tool-less Vector Seat Adjustment
- Multi Adjustable Ccontoured Hip Pads

COLORS:

- Red
- Orange
- Yellow
- Flame
- Blue
- Sky
- Lime

MAMBA 7.5:

The all rounder for youths, smaller paddlers, beginner river runners or advanced big water lovers. Quick and easy to roll plus it is so lightweight. A great platform whether your paddling is just getting started or you're stepping it up.

SPECS:

Length	7'7" / 227.5 cm	Weight	37 lbs, 17 kg / 41' lbs, 18.6' kg
Width	25.25" / 63 cm	Cockpit	34" x 19" / 85 cm x 47.5 cm
Volume	57 gal / 215 L	Deck Height	13.5" / 33.8 cm
Paddler Weight Range	120-170 lbs / 54.4 kg-77.1 kg		

* Weight of the Mamba Creek Version

MAMBA 8.5:

Send er' down your steepest local run or get ready for an expedition anywhere on earth. Big paddlers will love its forgiveness and resurfacing ability.

SPECS:

Length	8'5" / 252.5 cm	Weight	46 lbs, 21 kg / 50' lbs, 22.8' kg
Width	27.75" / 69 cm	Cockpit	34" x 19" / 85 cm x 47.5 cm
Volume	72gal / 272 L	Deck Height	15" / 37.5 cm
Paddler Weight Range	175-260 lbs / 79.3 kg-117.9 kg		

* Weight of the Mamba Creek Version

MAMBA 8.0:

Load up for big trips, surf it, spin it, or set up for that horizon line. The Mamba is truly versatile and a kayak that will be in use for many seasons.

SPECS:

Length	8' / 240 cm	Weight	42 lbs, 19 kg / 46' lbs, 20.9' kg
Width	26" / 65 cm	Cockpit	34" x 19" / 85 cm x 47.5 cm
Volume	62gal / 234 L	Deck Height	13.75" / 34.3 cm
Paddler Weight Range	150-215 lbs / 68 kg-97.5 kg		

* Weight of the Mamba Creek Version

FEATURES - RIVER RUNNER:

- D - Bone Welded In Seat Track
- Foam Subframe
- Flipswitch Backband
- Precision Adjustable Thigh Braces
- Tool-less Vector Seat Adjustment
- Multi Adjustable Contoured Hip Pads
- Multi Direction Adjustable Bulkhead Footbrace with Foam Padding

AIRALITE™ COLORS

WHITWATER PERFORMANCE FIT SYSTEM™

With the Performance Fit System you get a lighter, stronger and even more bomb-proof boat that has a completely intuitive and toolless outfitting system. So leave the wrenches and screwdrivers at home. We stripped down and simplified the outfitting systems for enhanced comfort and reduced weight – all the while stretching that performance edge that makes the new paddlers happy and keeps the river rats coming back for more. Off the line, these boats come with everything you need, ready to customize and dial-in just the way you like 'em.

Overthruster by IR
No more beach balls in the cockpit! Developed by working closely with our friends at Immersion Research® the Overthruster™ is an incredible addition of volume for maximizing powerful performance. Now, cranking out big air moves, aerial loops and flips just got easier.

5 Vector™ Seat
This year, the Vector™ seat has four contact points that connect your seat to the hull for a stable and secure ride. But for easy adjustability, you only need to adjust two of those points (which are completely toolless) to dial-in for the perfect fit.

Pleasure Wedger
This little beauty allows the angle of your seat to go up or down, so you can dial it in for your own body size. Like a bucket seat, it cradles (not pushes) your body and lifts from the center, then falls away to the sides. Balance and control are instantly improved. (All boats except RPM, Nomad & Mamba Creek.)

Foam Subframe
A foam subframe means that you get great flotation and are paddling a strong, rigid kayak. And what reinforces that fact (and your boat) is the marriage between the subframe and that D-Bone™ welded-in seat track. Yes Kemosabe, we're talking "strong like bull."

Padded Footbrace
Get this: A footbrace that's integrated with your foam wall and allows the boat to be used by multiple paddlers. Simply remove shims and add them in again. It's lightweight and customizable. It's also solid, impact resistant and provides great control, yet still oh-so-comfy on the feet.

1 D-Bone™ Welded-In Seat Track
Not only does it make for a lighter boat, but this rigid rail is fused to the hull and prevents hull deformation in all conditions. A more rigid hull = a better performing hull = many jealous friends.

2 Multi-Adjustable Hip Pads
Super light with a two-step fastener. So now you can adjust your hip pads in an infinite number of positions. They're lighter, better than anything else out there and adjust quickly and easily on the water. The future just landed in your lap.

3 Precision Adjustable Thigh Braces
New thermoformed thigh braces make for a lighter boat and cleaner finish. Plus, we've increased distance between the braces while maintaining that two inches of fore and aft adjustment. You've got performance and safety.

4 Flipswitch™ Backband
Fine-tune your fit with the ladderlock™ buckle on the backband. Then flip the thigh brace-mounted Flipswitches™ to crank down the backband and secure yourself in the boat. Simple. Secure. And dialed-in.

ZONE™

AND JUST LIKE THAT, YOUR KAYAK BECOMES YOU™

Expert paddlers who have effortless command of their boats achieve a kind of oneness with their kayaks. New Zone outfitting brings that experience to the rest of us. Using intuitive, uncluttered fingertip adjustments, Zone lets you tailor your connection to your kayak in an instant for a more comfortable, more satisfying on-water experience. Get taller your connection to your kayak in an instant for a more comfortable, more satisfying on-water experience. Get in your Zone. Paddle in it. Stay in it.

Sculpted, channeled, and vented foam self-drains and conforms to your shape, whatever your shape. Multiple backrest options: height and pitch can change on your whim, with fingertip ease.

INGENUOUS thigh brace design produces infinite articulation and optimum comfort and mastery of this critical contact point. ON SELECTED MODELS ONLY

Long hauls and uncomfortable boats don't go together. Kinda like ketchup and caviar. So we developed some of the most innovative outfitting ever conceived. It has no mechanical parts and no need for tools to adjust. Yeah, we like the simplicity of it, too. Don't believe us? Then take one of our touring boats for a spin. After all, paddling in unbelievable comfort, efficiency and responsiveness is believing.

EXPEDITION - TOURING COMFORT FIT SYSTEM™

Ergonomic Grab Handles
Hey, we'd carry your boat from your car to the water if we could, but these ergonomic handles are the next best thing. Designed with soft contours so you can get your hands in with ease so all your trips to the water will be almost as pleasant as the ones in the water.

Hammerhead Security Bar
Unless your last name is Gates, it might put a dent in your attitude and your wallet if someone walked off with your boat. This bomb-proof security bar makes sure that'll never happen.

Dual Density Hatch Covers
We found it. The perfect hatch cover. (Okay, we had to make it.) Flexible and grippy on the outside, protected as well. Told you it was perfect.

Camlock™ Adjustable Backband
Check it out. Solid boat control, easy adjustability and extreme comfort. Nice, eh? Ratchet buckles integrated into the Zone thigh braces provide quick adjustment from the cockpit. Now you can crank up or relax back with precise fingertip control.

1 Molded-in Ergonomic Seat with LiquiCell® Technology
Hey, we got your back. Or in this case, your butt. A molded-in seat lifts your legs and hugs your body while LiquiCell® provides a layer of cushion between your body and your kayak, reducing soreness and shear for those long days of paddling.

2 ZONE™ Outfitting thigh brace design
INGENUOUS thigh brace design produces infinite articulation and optimum comfort and mastery of this critical contact point. ON SELECTED MODELS ONLY

FastTrack™ Aluminum Rudder
Crosswinds and crosscurrents can sink. So we designed a rudder that doesn't. Our aluminum one is stiff, durable and less bulky than plastic. And its slim design makes for low drag. Plus, you can raise and drop it with butter-like smoothness. You liked? Thought so.

Bulkhead System
Yeah, yeah, they keep your stuff dry. But our bulkheads work extra hard to make your boat stiffer and more efficient, too. Made from stiff minicell foam and sealed twice with a hefty sealant, your gear will love you forever.

SPECTER 14.0:

Smaller shape for smaller paddlers. Take it out for a leisurely lunch break session or fill it up for a weekend getaway. The clean deck lines and flush mount water-tight storage hatches make this boat look as smooth as it paddles.

SPECS:			
Length	14'2" / 425 cm	Weight	58 lbs / 26 kg
Width	24.25" / 60.6 cm	Deck Height	13.75" / 34.4 cm
Max Capacity	285 lbs / 129.3 kg	Cockpit	34" x 19" / 85 cm x 47.5 cm

SPECTER 15.0:

From day tripping to long range touring, the Specter offers it all in an affordable package. The perfect balance of stability and speed with the ability to keep you in comfort for the whole trip.

 - Yellow
 - Flame

TOURING KAYAKS

Our belief in "wherever there's water" extends to every aspect of kayaking. And for those that like to lead life off the beaten path, a touring boat is the perfect escape from the day to day doldrums. Expeditions, day trips, overnights, or family paddling excursions, a touring boat is the paddling pick up we all want. Dagger's touring boats have a long standing heritage of performance and a reputation for quality. The long sleek lines ensure a fast smooth glide across the water while still providing a stable platform that is user friendly. And then there is the attention to detail. Dual Density hatches that seal water tight, perfectly placed deck rigging and ample room for accessory mounts. The new Zone multi adjust outfitting with thermo molded padding will allow you to enjoy all these miles in absolute comfort and control. Dagger Touring kayaks are a pleasure to paddle and a source for a more adventurous life.

- Third kids seat

RECREATIONAL KAYAKS

Ever wanted to get back to the little coves on a nearby lake? Wished you had a stable boat that you and your family could enjoy together? Want a versatile kayak you can use for years? A recreational kayak is the answer, and for many reasons. **Stability:** A stable platform to not only learn in but to explore in. Great for fishing and outdoor adventure or getting a first timer out on the water. **Comfort:** Comfort is key to be able to paddle all day and in total bliss. Dagger's recreational kayaks offer an oversize cockpit to avoid any claustrophobic feelings as well as offering room for a wide range of body types. **Weight:** Easy to handle and carry to the car and even easier to load for your trip to the lake. We use only the best materials that are not only durable but the lightest we could find. **Performance:** Features such as Dagger's drop skeg technology ensures you stay on track and helps your paddling to progress rapidly.

APPROACH 9.0:

The small persons addition to the hybrid crossover kayak family. Its size may be small but its packed with features. A drop down skeg for directional tracking and adjustable foam padded outrigger. This stable, forgiving and confidence inspiring boat is equally at home on the rivers or the lakes. The light weight manageable design is ideal for smaller adults and kids wanting to begin their whitewater adventures or looking for a maneuverable recreational kayak.

SPECS:

Length	9' / 274.3 cm	Weight	38 lbs / 17.25 kg
Width	25.5" / 64.75 cm	Deck Height	12" / 30.5 cm
Max Capacity	200 lbs / 90.75 kg	Cockpit	36" x 20" / 91.5 cm x 50.75 cm

SPECS:

Length	10' / 300 cm	Weight	44 lbs / 20 kg
Width	28" / 70 cm	Deck Height	13.5" / 34.3 cm
Max Capacity	330 lbs / 149.9 kg	Cockpit	38.75" x 21.25" / 82.5 cm x 47.5 cm

APPROACH 10.0:

- The ultimate in hybrid crossover kayaks. Stable, forgiving, and light with extra cockpit room. Run rivers or paddle on the lake. The cockpit supports the use of a spray skirt and the storage hatches seal tight and dry. Spring-loaded drop skeg helps improve your paddling with directional tracking.
- FEATURES:**
- Large easy access cockpit
